

## BRIDAL PORTRAIT INFORMATION

The first step is to choose a day to take your portraits. It takes on average 5 weeks to provide a finished 16x24 print. For framing add another couple of weeks. In special situations our quickest turnaround could be 3 weeks, but some rushing fees may apply. We encourage weekday photo shoots since weekends are reserved for weddings, but exclusions may apply.

The next step is to select a location. San Antonio has many beautiful outdoor locations to take photos. Do your research and select a location that meets your style and personality. Here are some ideas:

McNay Museum  
Botanical Gardens  
Pearl Brewery  
Landa Library  
Japanese Tea Garden  
Downtown/Riverwalk/Hayes Bridge  
Hemisphere Park/Alamo/Market Square  
Mission San Jose/Mission Concepcion  
Country Clubs/Golf Clubs  
Church  
Hotel  
Cibolo Nature Center (Boerne)\*  
Gruene\*  
Guadalupe State Park\*  
Canyon Lake\*  
\* Travel fees will apply.

Tip: Google these locations for bridal photo samples and visit their websites for more information on fees & schedules.

The next step is to setup a time. This is based on lighting conditions, the time of the year and location schedules. Best times for photo sessions are early in the morning or late in the afternoon. A typical session takes 90 minutes so 2 hours before sunset would be the best time of the day.

Finally, a day or two before the set date, we'll contact you to confirm weather conditions and meeting location. If rain is expected, you'll have to decide if you want to move it to another day or do a last call an hour prior to postpone it. If we leave our studio and you decide to postpone after this, we will charge you a \$75 rescheduling fee to move the session to a future date.

Please don't forget to bring your bouquet, makeup kit, water, white towel, cash/permits and a person to help with dress, veil, etc.

2-3 weeks after the session, we'll email you a link to view the images online. After you view them, provide a list of your top 10 and provide special editing instructions if needed. The email will have specific instructions on how to do all this. We will then edit these images based on your requests. A couple of weeks later, we'll send you another email to view the 10 edited images. Once again select your favorite and send it to us via the app for us to print the 16x24. The printing process takes another week.

The print will not be framed. We recommend Michael's, Hobby Lobby, or any professional frame shop. Tips: It is not necessary to add glass to the frame and easels are usually provided by the reception venue, but to be safe check with them first.

Remember you have printing rights of all images so if you want to print more, feel free to use the edited images and print as you wish. These images will also be provided on the USB once we finish the wedding. Some brides like to send photo ideas prior to the session. We welcome this idea and input. Please email images to [info@infinityweddings.com](mailto:info@infinityweddings.com). It is recommended to limit this to 10 images. If you have any questions, please call 210-744-5566 or visit our website at [www.infinityweddings.com](http://www.infinityweddings.com).
