10:45	Open Dance
11:15	Last Dance
11:20	Line up for Send Off (sparklers)
11:30	SEND OFF

The timeline is mostly used for general information. During weddings times usually change a little. This is normal and we know to expect it. If you don't have a coordinator, we will try our best to help you maintain the timeline of the wedding. If you're running late or want to change the end time, you can always add photo/video hours and the added fees will be collected once the Videos/Photos are ready. Remember this particular timeline is focused on Photography and Videography. Other vendors may require different information. Consult your coordinator or vendor for more information.

Tip: Request your decorator, florist, lighting, catering vendors to be prepared early before the start time of the ceremony and reception locations. This will allow us the opportunity to capture the settings prior to guest arriving. Also, for photography use, tell your florist to bring all Bouquets and Boutonnieres early in the pre-ceremony process.
