

INFINITY VIDEO & PHOTO TOP 10 Q&A

How long have you been in business?

We started doing weddings in 1999 and we've had the fortune of being part of over 1500 events since then.

How many weddings do you cover per weekend?

In order to provide the best service and work, we only cover 1-2 weddings per weekend depending on how many videographers get booked per wedding.

Who will record my wedding?

The owner and lead videographer is Tomas and he records 70% of all first bookings. This decision is based on the number of weddings and difficulty levels of each one. Other videographers are Bert 15, Myrna 10 and Victor with 7 years of experience. They've all been personally trained by Tomas so they share the same style.

Who will edit my wedding?

Myrna, Infinity's co-owner and Tomas's wife and Victor are the editors. We're proud to say that in all these years, we've never outsourced our editing work. Everything is done in-house which is one of the reasons we always provide the best quality with all of our weddings.

Can we request a different style to record and/or edit?

Absolutely. We've been in business longer than any other South Texas wedding video company and one of the reasons is because we've adjusted to the changes in technology, style, and trends. Plus, we appreciate customizing wedding videos to couples' styles and personalities so yes, absolutely!

TOP 10 Q&A

What are edits?

All edits (trailer, reel, highlight, cinematic & documentary) are based on music background and voices captured with our mic's. The shorter edits have more music and the longer ones have more voices. Voices could be officiant, bride and groom vows or letter reading, toast/speeches and even wedding party or parents comments.

What are films?

All films (short, legacy & featured) are based on natural sounds and voices captured with our mic's. Films have no music background, unless the music is coming from a speaker or singer at the event. On the short and legacy film, the couple will get to choose what they want on the edited film. The feature will have everything.

When should we book you?

Because we only cover a select number of weddings per weekend, you should book us as soon as you can to secure availability. Typically, couples book us 6-8 months before the wedding, but we've been booked 12-16 months before, particularly if your wedding is on a popular day or month.

What is needed to book?

A contract which is available by request or on our website and 1/3 of the total. Second payment is also 1/3 and is due 3 months before the wedding and final payment is due 3 weeks before. If you prefer to make multiple payments, we can arrange that as well. We accept credit cards, paypal, venmo, cash app, zelle, checks and cash.

What is the turnaround?

Depending on the season, 6-10 weeks after the wedding.

What else will you need from us?

A wedding day timeline and music selection for the highlight video. Also, once we get closer to the wedding, we always try to meet in person, online or by phone to talk about the recording and editing styles and preferences.
